Assignment 1 – Features & Benefits

1. **I take ownership of my work** - What i do i give my best, i like to think myself as a company so what i do i face like i am doing for my own company if i fail my company will fail, then I understand that my work is my responsibility not of someone else, my boss for example.
2. **Proactive** – Instead of wait for events to unfold I like to warn and influence people when a problem might happen and how we could solve it even though it is not the scope of my task.
3. **Productive** - I do not waste time when i am working, i like to do as much as i can during my work schedule. I do not let the things outside of work interfere with my work. I have my routines during the day which helps me to keep the productivity.
4. **Fast Learner** – I adapt myself easily and fast to new technologies and new process. At many times, I had to get out of my comfort zone and start to work on areas which I have not worked before, I know how to deal with those situations and I handle it well.
5. **Suitable** - I could fit in many projects since that i learn fast and i get along with all the teams. I like to know at least a bit of everything even though there are the areas which i am stronger, in that way when i should learn something new i do not start from the scratch so i can learn faster.
