Assignment 3 – Core Values

Core values are the fundamental beliefs of a person or organization. These guiding principles dictate behavior and can help people understand the difference between right and wrong. Core values also help to determine if the person is on the right path and fulfilling their goals by creating an unwavering guide. There are many different types of core values in the world, depending upon the context.

My Core Values:

1 – Financial Resources: Since I moved from my country to Canada, my financial situation became my priority in mind, I gave up of many of my common expenses back in my country to be able to achieve what I am trying to. Now I put my financial situation on top of any decision, I believe this is one step I have to overcome in my journey, so far, I have been going well with this decision.

2 – Personal Growth: Associated with the first core value Financial Resource, personal growth is the way for me to achieve it. I found a solution based on studying and working hard, at the end i would change my financial situation. This core value is not just associated with money, I had to focus on studying and improving myself in my profession to prove to Canada that I am able to work on my field of study.

3 – Work Satisfaction: This is my third core value because I often think about it, today I do not have the work satisfaction i expect but, it was worse before. I believe if i keep doing what I am doing I will achieve the state of satisfaction i want. For me this is hard to achieve since I am always looking for something better than I what I have at the moment.

4 – Home and Place: Related to financial resources thoughts, I often think about either my home here in Canada or my home back in my country, I am also a kind of person which like to be at home, I guess it helps me to achieve most of my goals.

5 – Friends: Friends are something that I have been thought a lot, since I do not have too much time for them now than I had before, I miss a lot it. In my plans I will equilibrate it better in the near future, because since I am too focused on work, study and, saving money, it leaves me no much time to enjoy the friends, so since it is becoming a problem to me, this is a core value.
